

MA50G Quick Installation Guide

- 1) Choose a mounting location with a flat surface the size of the speaker
- 2) There must be at least 1.77" (45mm) of clearance behind the mounting area
- 3) Drill a 2.56" (65mm) hole making sure that there is nothing behind the surface that could be damaged.
- 4) Connect the red speaker lead wire to the "+" side of the speaker line on the stereo and the black speaker lead wire to the "-" side of the speaker line on the stereo
