

ME-50 Expansion Amplifier

The ME-50 is a two channel audio amplifier capable of delivering up to 25W RMS per channel. It has a compact, waterproof design that allows for flexible mounting possibilities, and makes it simple to expand the audio system capabilities for any installation.

USES:

- *To add additional loudspeakers to a current audio system*
- *To provide amplification for a separate audio zone*
- *As a stand-alone system amplifier for any audio source*

FEATURES:

- Powers up to 4, 4 ohm speakers
- Internal distortion limiting circuits
- Accepts line or speaker level inputs
- Dedicated gain level control
- Supports optional external volume control
- Waterproof design for marine use

SPECIFICATIONS:

- Speaker impedance 2-8 ohm
- Output power
2 ohm load – 25 W RMS/Channel
4 ohm load – 15 W RMS/Channel
- Frequency Response
20Hz – 20kHz
- Operating Voltage 13.8 VDC (10V – 16V)
- Idle Current (no signal) – 10 mA
- Maximum current draw (full power) – 7 A
- Remote wire current – 4 mA
- Dimension (approx w/h/d) – 105mm X 40mm X 120mm
4.15 X 1.5 X 4.75 inches
- Weight - .425 Kg
15 oz
- Volume control cable length – 114 inches
